SOPIA

gleam and glint

Talk about precious metals. From **Viadurini**, an e-commerce company for luxury furniture made in Italy by master artisans, arrives the golden Sofia countertop basin. Its unusual triangle shape provides multiple positioning possibilities with measurements of 15 by 22 by 25 inches and a height of 5. The sink is handmade in ceramic immersed in a glossy metallic-gold finish that's silky smooth to the touch. Custom options are also available. viadurinimilano.com ▶
